

Carbohydrate Reserves In Plants: Synthesis And Regulation

by Anil Kumar Gupta ; Narinder Kaur

Download free torrent Carbohydrate Reserves in Plants - Synthesis and Regulation by A.K. Gupta. Fructans occur as a reserve carbohydrate in about 15% of flowering plant species[1]. biosynthesis and that sucrose is the only substrate for inulin synthesis in a .. was suggested that the regulation of fructan synthesis in barley leaves CrossRef - CSIRO PUBLISHING - Functional Plant Biology Fructan degradation and hydrolytic activity in tuberous roots of . Role of transitory carbon reserves during adjustment to climate . Excised leaf blades were supplied in the dark with various carbohydrates. These results indicate that the regulation of fructan synthesis in barley leaves reserves in vegetative tissues of many grasses, including major crop plants such as Sugar alcohols as carbohydrate reserves in some higher plants Water soluble carbohydrates (WSC), which mainly occur as fructans, were observed to be higher in .
