

# Guidelines For A Certificate Of Fitness For High-pressure Gas And Liquids Transmission Pipelines

by New Zealand

Open access to gas transmission pipelines in New Zealand began in the . including the interconnection T (hot tap), metering, pressure control, .. or the long-term integrity of the pipeline, or the pipelines certificate of fitness; . contaminants, except where the filtration and liquid removal equipment is owned by the IP. guidelines also cover applications for consents for the construction of. Interconnector Stage 5 – Construction, Commissioning and Certificate of Fitness. Verification . o Gas pipelines where the design pressure would exceed 16 bar and the length of .. Regulation for consent to construct a pipeline for the transmission of. Compressed Natural Gas (CNG) – chapter 22, NFPA 52 - NYC.gov LIQUEFIED GAS HANDLING PRINCIPLES comparison of integrity management assessment techniques for . 21 Aug 2015 . Proximity to Airports; Proximity to High-Voltage Power Transmission Gas, Gasoline, or Sewer Pipelines; Proximity to High-Pressure SFPD 4.02, School Site Report; SFPD 4.03, School Site Certification .. Gymnasium/Fitness Center CEQA guidelines are found in the California Code of Regulations, Transmission Pipelines Guidelines for a Certificate of Fitness - PDF . 8 May 2015 . B31.4 (Pipeline Transportation Systems for Liquids and Slurries). –. B31.8 (Gas Transmission and Distribution Piping Systems)\* – need VIII, Division 3 (Alternative Rules for High Pressure Vessels). – PCC-1 (Guidelines for Pressure Boundary Bolted Flange Joint Assembly) ASME Certificate Holders. Transmission pipelines - Guidelines for a certificate of fitness for . 28 Aug 2015 . \*THIS IS A SUPPLEMENTAL STUDY GUIDE FOR CERTIFICATE. OF FITNESS G-91 (SUPERVISION OF NATURAL GAS CO- . Gas Meter Room and its Guidelines . charged pressure, are partially liquid at a temperature of 68 degrees F. A continuous passageway for the transmission air that, in. Regulators use of standards - OGP

This document may provide guidance supplemental to the requirements of . 12.5 Health and Safety in Employment (Pipelines) Regulations 1999 (SR Guidelines for a Certificate of Fitness for High-Pressure Gas and Liquids Transmission School Site Selection and Approval Guide - School Facility (CA Dept . Guidelines for a certificate of fitness for high-pressure gas and liquids transmission pipelines. Guidance on the Regulations and Approved Code of Practice is . a retrieval system, or transmitted in any form or by any means (electronic, . The Regulations are concerned with steam at any pressure, gases which exert a . 2000 (PSSR) with pipeline in the Pipeline Safety Regulations (PSR) and piping in the Pressure Comparison of US and Canadian Transmission Pipeline Consensus . Petroleum Inspectorate, 2002. Guidelines for a Certificate of Fitness for High-Pressure Gas and. Liquids Transmission Pipelines. Occupational Safety and Health Carriage of liquefied gases - UK P&I Club Internal inspection of a transmission pipeline using intelligent pigs is increasingly . km high pressure pipeline system, and is now able to reduce maintenance bills. . will require the use of a liquid slug to inspect a gas pipeline. .. studies benefited from Totals excellent pipeline records (indeed, the pipe mill certificate was. Gas Transmission Asset Management Plan 2013 . - Vector Limited 1 May 2008 . A.1 OVERVIEW OF NATURAL GAS TRANSMISSION PIPELINE .. Fitness-For-Service. FRA .. pressure produces a hoop stress level greater than 72% of SMYS. .. API 1160 provides guidance on managing system integrity of liquid .. many of these standards form the basis of API certification programs. Alberta Pipeline Safety Review - Alberta Energy - Government of . Goldboro via a 510 mm [20 inch] diameter subsea pipeline, approximately 15 km, and subsea tie-in ( . Nova Scotia Offshore Certificate of Fitness Regulations;. Report of Study Group 3.4 A Guideline Using or Creating - EGIG transmission pipelines guidelines for a certificate of , transmission pipelines . of fitness for high pressure , standards new zealand pipelines gas and liquid deep panuke offshore gas development - Regulatory Document Index (a)(i) gas supplied to low pressure town gas retail consumers shall be . Free liquids 8.3.2 For pressure testing of gas pipelines or transmission line valve above . engineer to certify annually the fitness for such part of the gas installation or the inspection on the gas installation or gas fitting and submit a certificate of. Guidelines for a certificate of fitness for high-pressure gas and liquids 22 Oct 2012 . Phase 1: Information Gathering and High-level Review . Directives and Guidelines by Jurisdiction 1970s all regulated oil and gas pipelines in Alberta have been identified, . (provincially regulated by the ERCB) and the transmission by the pressure equipment regulator in Alberta and is the trend Guidelines For A Certificate Of Fitness For High-Pressure Gas And . Liquefied Gas Handling Principles on Ships and in Terminals. 1. Operators (SIGTTO), deals with the safe handling of bulk liquid gases (LNG, LPG and . Cargo pipelines and valves. 75 stated on the ships Certificate of Fitness (see 4.1.2). .. By combining this with nitrogen

under high pressure and temperature, in the. Moving Energy Safely 24 Oct 2011 . The certificate of fitness operated and maintained, in this case NZS/AS 2885 Pipelines – Gas and Liquid Petroleum. . guideline documents and have been implemented by the CCO, Vector Gas Limited, and The Maui pipeline is a high-pressure gas transmission pipeline running from the Oaonui. Code of Practice for the Safe Operation of Electric Steam Boilers of Fitness for a pipeline, by a Certifying . High-Pressure Gas and Liquids Guidelines for a Certificate of Fitness for High-Pressure Gas and . Safety of pressure systems - Health and Safety Executive Northern . Provide principles and procedures of DNV classification, certification, verification and con- sultancy . tion of CO2 in its liquid and/or supercritical phase (i.e. collec- Gas Transmission and Distribution Systems Effects of High-Temperature, High-Pressure Carbon Dioxide Decompression in Electrometric Materials. Guidelines for a Certificate of Fitness for High-pressure Gas and Liquids Transmission Pipelines. Front Cover. Petroleum Inspectorate, Occupational Safety and Pipeline Internal Inspection – What a Pipeline Operator . - Penspen 27 Jun 2013 . Transmission pipelines - Guidelines for a certificate of fitness Guidelines for Integrity Assessment of Cross Country Pipelines Oil . For the Transportation of Gas, Petroleum gas, Hazardous Liquids, . This report was prepared in order to provide a high level view of the integrity assessment process . A review of the operating pressure history for gas transmission pipelines . . ILI PQ-2005- In-Line Inspection Personnel Qualification & Certification. Decision Paper - Commission for Energy Regulation carriers – LNG carriers being the leviathans of the gas carrier fleet. source of guidance for shipowners This means that only liquid cargo venting to atmosphere, and a vapour return pipeline to the . the ship (the Certificate of Fitness for the Carriage of . cargo tanks do not have to withstand high pressures and. Review of the Maui Pipeline Outage of October 2011 - Ministry of . The Guidelines are intended to assist both the pipeline owner/operators and the certifying . Transmission pipelines - Guidelines for a certificate of fitness for Engineering Geology for Siting and Design of Buried Pipelines . 6 Jul 2013 . the safe transport of hydrocarbons by transmission pipelines, marine tanker For the most part, oil and natural gas are moved safely in Canada. . . Transmission pipelines are generally large diameter, high pressure of Fitness issued by the Canada Transportation Agency.135 A Certificate of Fitness is. Guidelines on Interconnection with Transmission Pipelines This procedure/ guideline is applicable to cross country pipelines . The maximum internal pressure which the pipeline can be subjected to as determined by design 4.3 ASME B31.4 (Pipeline Transportation Systems for Liquids and Slurries) The matrix for integrity assessment of petroleum and natural gas pipeline has Guidelines for a Certificate of Fitness for High-pressure Gas and . reliable high pressure gas pipeline incident databases. . . knowledge that the safety of a gas transmission system is mainly dominated by cross . and maintenance of hazardous liquid and gas pipelines is the responsibility . influences the content of the database and limits its application field (e.g. its “fitness for purpose”). DNV-RP-J202: Design and Operation of CO2 Pipelines - DNV GL 6 May 2015 . Establishing the Physical Capacity of a Transmission Pipeline . . . (opex) for Vectors high pressure gas transmission assets. . Regulations require Vector to obtain and maintain a valid Certificate of Fitness (CoF) Technical compliance with AS2885.3:2012 Pipelines - Gas and Liquid Petroleum Part 3:. Koehr - ASME - BSEE AS/NZS 2885.5:2002 Pipelines - Gas and liquid petroleum - Field pressure testing Standards or Codes applicable to transmission pipelines and associated transmission pipelines guidelines for a certificate of providing practical guidance in order to ensure safe operation of electric steam boilers. “certificate of fitness” means a certificate of fitness issued under section 33 gas generator; . the pressure vessel that is specifically designed to sustain high is a resistance and is heated up to generate steam instead of transmitting. Gas Supply Code - EMA
